➔ Immediate Contract Opportunity – Intermediate HTML / CSS Production Position

Smallbox Software, an innovative BC-based software company, seeks an Intermediate HTML / CSS Production Person to assist with the preparation, styling, and integration of websites into our content management system (CMS). The immediate contract opportunity is to fill a vacation leave and will be a minimum of three weeks with the potential for extension or continuing contract engagements.

With a client list including private and public sector leaders such as the BC Film Commission, Graphic Designers of Canada, Icsid and Icoграда and Exhibition Place, Smallbox is poised for further expansion into this competitive marketplace.

Position Overview

We are looking for a dynamic, self-motivated individual who picks up new skills quickly and works individually and in a team environment. Versatility and the ability to multi-task are musts.

Smallbox offers an exciting work environment where you can bring your ideas to the table and share in the vision of creating a superior content management system. Creating templates and style sheets is only half of the position, integrating these components into Smallbox CMS is the other half. We are constantly making this process more intuitive but are always looking for fresh ideas.

The work is exciting and fresh with each new project bringing unique challenges and opportunities.

Skills Summary

Job Requirements:
